

2020 Alabama History Institutes: Grades 10-12

Women's History in Alabama's Black Belt

Black Belt Treasures Cultural Center, Camden

June 9-11, 2020

Cathy Jones, Lee County Schools

Let's continue to celebrate Alabama's history! If slave narratives, quilts, women's history, and the struggle for Civil Rights pique your interest, join other educators like yourself for a three-day Alabama History Institute in Camden! At the Camden History Institute, teachers will share and learn about the history of Camden and Wilcox County through the lives of its residents. Designed for secondary social studies teachers, the history institute will recount our past as it illuminates the lives of women. Teachers will learn various strategies that make history come alive and that will engage their students. Field trips, primary sources, content area specialists, and oral histories will make this history institute one to remember.
