Take a new approach to studying the modern Civil Rights Movement by learning all about Alabama's female activists. Hear their personal stories from local historians, tour an array of Montgomery's famous Civil Rights sites, and receive hands-on training to take back to your classrooms. Together we will answer questions such as: What role did women play in the civil rights movement, and how did the civil rights movement affect the women's movement? Celebrate our nation's centennial of the 19th Amendment by rediscovering the legacies of Alabama women who fought for equality for all.
