

Three-piece Airplane Model

Follow the directions below to make the Three- Piece Airplane Model.

1. Cut all three pieces out.
2. Make a small cut along lines A on the plane and on the tail.
3. Make a small cut along lines B on the plane and on the wing.
4. Insert tail cut-out in the tail slot A. (Match the dark line in the slot.)
5. Insert the wing cut-out in the wing slot B. (Match the dark line on wing in the slot.)

Hint: Use small piece of tape to stabilize the tail and wing on the plane.

Personalize it by decorating your plane with markers or crayons!
