Historical Context

The State Ethics Commission was created in 1973 by Act No. 1056 of the Alabama Legislature which has subsequently been amended by acts 75-130, 76-460, 79-697, 82-429, 86-321, 92-342, 95-194, and 97-651.

Agency Organization

The commission has five members appointed by the governor, lieutenant governor, and the speaker of the House of Representatives, with confirmation by the Senate. Any public official, candidate for a political position, registered lobbyist and his/her principal, or former employee of the commission is not eligible to be appointed as commission members. Members serve five-year staggered terms and may not be reappointed to succeed himself or herself. The commission elects a chairman and a vice-chairman. Commission members usually meet once a month. A quorum consists of three members. The commission appoints an executive director who serves at the pleasure of the commission. The commission also employs additional staff members through the state merit system. An organizational chart is attached.

Agency Function and Subfunctions

The mandated function of the State Ethics Commission is to administer the state’s ethics law which was designed to protect government officials from conflicts of interest between private interests and public duties. It is one of the agencies responsible for performing the Regulatory function of Alabama government.

In performance of its mandated function, the State Ethics Commission may engage in the following subfunctions.
Promulgating Rules and Regulations. The Code of Alabama 1975 § 36-25-4 authorizes the commission to prescribe and publish rules and regulations for the administration and enforcement of the state’s ethics law. This subfunction encompasses activities pertaining to the development of rules/regulations, a uniform reporting system, and other standards or requirements deemed necessary for the implementation of the state’s ethics law.

Collecting and Maintaining Required Disclosure Reports. The Code of Alabama 1975 § 36-25-14 requires each elected/appointed public official at the state, county, or municipal level of government who earns an annual base salary of fifty thousand dollars ($50,000) or more to file a statement of economic interests with the commission no later than April 30 of each year, and all candidates for elective offices to file at the time they become candidates as defined by the Code of Alabama 1975 § 17-11A-2. The Code of Alabama 1975 § 36-25-10 mandates that any public official/employee, or members of their families, or a business with which the public official/employee is associated, or anyone who represents a client for a fee before any state, county, or municipal government entity, must file a notification form with the commission. The commission is also authorized by the Code of Alabama 1975 § 36-25-16 to require notification about any state contract paid with public funds made between a state, county, or municipal government agency and a private business with which a state, county, or municipal government employee or members of his/her family is associated.

Regulating Lobbyists. The Code of Alabama 1975 § 36-25-18 requires all lobbyists to register with the commission by filing required forms and paying an annual fee of one hundred dollars ($100). Government employees serving as lobbyists are exempted from the annual fee requirement. Additionally, every person registered as a lobbyist and every principal employing any lobbyist must prepare and submit to the commission a quarterly expenditure and activity report. When a person ceases to engage in lobbying activities, s/he must file a written statement with the commission notifying it of the termination of these activities.

Issuing Advisory Opinions. The commission is authorized under the Code of Alabama 1975 § 36-25-4(9) to issue and publish advisory opinions, when requested, that address the requirements of the ethics law relative to the actions of government employees. Two types of advisory opinions are issued: formal advisory opinions are issued based on a real or hypothetical set of circumstances; informal opinions are only issued when the question asked deals with a matter of black-letter law (an informal term indicating the basic principles of law generally accepted by the courts and/or embodied in the statutes of a particular jurisdiction) or where the commission has previously addressed the matter with a formal opinion. Advisory opinions are adopted by a majority vote of commission members present and are effective until overruled/altered by the commission or by a court of competent jurisdiction.

Investigating Alleged Violations. The Code of Alabama 1975 § 36-25-4(c) authorizes the commission to investigate written complaints of alleged violations of ethics statutes. The commission may not respond to anonymous complaints and has no
subpoena power or enforcement authority. After investigation, the commission may issue decisions of either probable cause or close due to insufficient evidence or the case may be handled administratively for a minor violation. Probable cause decisions are then referred to the attorney general or to appropriate district attorneys for further action.

- **Educating Government Employees.** The Code of Alabama 1975 § 36-25-4 (10) requires the commission to “initiate and continue where practicable… programs for the purpose of educating candidates, officials, employees, and citizens of Alabama on matters of ethics in government service.” Staff members of the commission routinely conduct educational programs on Alabama Ethics Law for state, county, or municipal government employees as well as civic or professional organizations. In addition, the commission may prepare and distribute newsletters or other informational publications to inform and update government employees on rulings and activities of the commission.

- **Providing Access to Records.** The Code of Alabama 1975, Section 36-25-4 (5), mandates the commission to “make reports and statements filed with the commission available during regular business hours to public inquiry subject to such regulations as the commission may prescribe.” In order to provide access to these reports and statements, the commission requires identification by name, occupation, address, and telephone number of each person requesting information.

- **Administering Internal Operations.** A significant portion of the agency’s work includes general administrative, financial, and personnel activities performed to support the programmatic areas of the agency.

  **Managing the Agency:** Activities include internal office management work common to most government agencies such as corresponding and communicating; scheduling; meeting; documenting policy and procedures; reporting; litigating; drafting, promoting, or tracking legislation; publicizing and providing information; managing records; and managing information systems and technology.

  **Managing Finances:** Activities include budgeting (preparing and reviewing a budget package, submitting the budget package to the state Finance Department; documenting amendments and performance of the budget); purchasing (requisitioning and purchasing supplies and equipment, receipting and invoicing for goods, and authorizing payment for products received); accounting for the expenditure, encumbrance, disbursement, and reconciliation of funds within the agency’s budget through a uniform system of accounting and reporting; authorizing travel; contracting with companies or individuals; bidding for products and services; assisting in the audit process; investing; and issuing bonds.

  **Managing Human Resources:** Activities involved in managing human resources may include the following: recruiting and hiring eligible individuals to fill vacant positions within the agency; providing compensation and benefits to employees; supervising employees (evaluating performance, disciplining, granting leave, and
monitoring the accumulation of leave); and providing training and continuing education for employees.

**Managing Properties, Facilities, and Resources:** Activities involved in managing properties, facilities, and resources may include the following: inventorying and accounting for non-consumable property and reporting property information to the appropriate authority; constructing buildings and facilities; leasing and/or renting offices or facilities; providing for security and/or insurance for property; and assigning, inspecting, and maintaining agency property, including vehicles.
Analysis of Record Keeping System and Records Appraisal of the State Ethics Commission

Agency Record Keeping System

The State Ethics Commission currently operates a hybrid record keeping system composed of paper and electronic records.

The commission maintains several servers to provide various functions for its staff members. One server running Access is used for the database for activities mainly associated with the statements of economic interests. Another server is running Microsoft Windows NT for the commission’s imaging system. Implemented in 1999, the imaging system is utilized in the scanning of statements of economic interests. The Information Services Division, Department of Finance, also maintains a server running the Lotus Notes for the commission’s databases for lobbyists, case files, and advisory opinions. All servers are backed up daily and backup tapes are stored in a fireproof cabinet onsite.

Records Appraisal

The following is a discussion of the two major categories of records created and/or maintained by the State Ethics Commission: Temporary Records and Permanent Records.

I. Temporary Records, Temporary records should be held for what is considered to be their active life and disposed of once all fiscal, legal and administrative requirements have been met. Some of the temporary records created by the State Ethics Commission are discussed below:

- **Statements of Economic Interests.** These statements are filed annually by all elected officials; certain appointed officials; and certain public employees at the state, county, or municipal level of government to document their private and public financial interests. All candidates for elected positions must also complete and file the same statements with the commission. The Code of Alabama 1975 § 36-25-4(6) mandates the commission to “preserve such reports and statements for a period consistent with the statute of limitations as contained in this chapter.” A 4-year retention would fulfill the federal/state statute of limitations and the commission’s reference needs. Statements of Economic Interests Filed by elected state officials, state agency heads, and appointed state officials are recommended for permanent retention as they supplement other permanent records, such as administrative correspondence, in the documentation of state government operations.

- **Monthly Digests of Advisory Opinions.** These are typed digests of advisory opinions distributed by the commission on a monthly basis to the governor, attorney general, cabinet members, examiners of public accounts, agency heads, League of Municipalities, Association of County Commissions, and others. The commission maintains this series for useful life as permanent documentation is available in the Advisory Opinion Files, Digests of Advisory Opinions, and Advisory Opinion Working Files.
II. Permanent Records. The Government Records Division recommends the following records as permanent.

Promulgating Rules and Regulations

- **Meeting Agendas, Minutes, and Packets.** This series contains information on proposed and executed proceedings of the commission. In addition to minutes, this series also includes meeting agendas and other supporting or reference documents. These records should be preserved as the core documentation of the commission’s operations. *(Bibliographic Title: Meeting Minutes)*

- **Register of Administrative Procedures Rule Filings.** The Code of Alabama 1975 § 41-22-6 mandates that each state agency should keep a permanent register of its rules and/or regulations promulgated, whether the original or a revision, and open them to public inspection.

Collecting and Maintaining Required Disclosure Reports

- **Statements of Economic Interests Filed by State Elected / Appointed Officials, and Agency Heads.** See appraisal statement listed under Statements of Economic Interests Filed by All Other Government Employees. *(Bibliographic Title: Statements of Economic Interests)*

Regulating Lobbyists

- **Lobbyists Registration, Termination, and Reporting Files.** In accordance with the Alabama Ethics Law, all lobbyists and principals must register with the commission every year, file quarterly reports, and notify the commission when lobbying activities have been terminated. This series may include, but is not limited to: Lobbyist Registration Statements, Principal’s Statements for Lobbyist Registration, Quarterly Statements of Lobbying Activities, Statements of Termination of Lobbying Activities, and Registered Lobbyist Lists. Since the legislature ceased to register lobbyists several years ago, information on professional lobbyists can only be found in this series maintained by the commission. Collectively, these records provide a complete documentation on the lifecycle, from registration to termination, of lobbying activities. *(Bibliographic Title: Lobbyists Registration, Termination, and Reporting Files)*

Issuing Advisory Opinions

- **Advisory Opinion Files.** These records are created to document requests by individuals or agencies for an advisory opinion on the requirements of the state’s ethics law, based on a real or hypothetical set of circumstances. This series, consisting of original copies of advisory opinions signed by the commission chairman, has archival value in providing evidence of the ways in which the state ethics law was interpreted and of legal ground for actions by government employees. *(Bibliographic Title: Advisory Opinions and Supporting Files)*
- **Digests of Advisory Opinions.** This series contains bound volumes of advisory opinions published by the commission on a yearly basis (discontinued after 2003 due to budget restraints). Each volume is divided into summary digest of advisory opinions, complete text of questions and advisory opinions, and index to advisory opinions by subject titles. Although information is somewhat duplicated in the Advisory Opinion Files, these volumes may be used as a ready reference and should be preserved permanently. *(Bibliographic Title: State Publications)*

- **Advisory Opinion Working Files.** This series is created by the commission staff to track the processing of advisory opinion requests and the development of advisory opinions. Included are correspondence, memos documenting communication with certain individuals or institutions, draft advisory opinions, proofreading slips, and copies of approved advisory opinions. The commission maintains this series permanently in its office as supporting documentation to its advisory opinions.

**Investigating Alleged Violations**

- **Investigation Case Files.** These records are created to document investigations made as a result of a document filed with the commission, in response to a complaint filed by an individual with respect to alleged violation of any part of the ethics law, or as a result of alleged failures to file any document required by law. Types of records may include complaints, working files of investigation, minutes of hearings, and correspondence. Information available in these records may include names and addresses, natures of allegations/violations, detailed investigation reports, actions taken by the commission including referral of the case to the office of the attorney general or other law enforcement authorities. This series documents one of the primary functions of the commission. Since the case files are considered confidential and restricted under the Code of Alabama 1975 § 12-16-214 to 216, the commission preserves the case files permanently in its office.

**Educating Government Employees**

- **Informational and Educational Publications.** This series consists of various publications issued and distributed by the commission to educate and inform government employees and the public about different aspects of the Alabama Ethics Law and activities of the commission. The publications may include reprinted articles, newsletters, video presentations, brochures, or other related materials. *(Bibliographic Title: State Publications)*

- **Annual State Ethics Commission Seminar Analyses.** This series is composed of printed booklets to recap statistical data about educational seminars conducted by the commission staff. Information includes recap of monthly, quarterly, and year-to-date educational seminars and attendance numbers, comparison of data of previous years to current year, educational seminars listed in chronological sequence with attendance figures, and educational seminars listed in alphabetical and chronological sequence by
speakers. Due to budget restraints, the commission currently maintains this series in its database. **(Bibliographic Title: State Publications)**

**Providing Access to Records**

Permanent records providing summary documentation of this subfunction are found in the commission’s annual reports as described in the Administering Internal Operations subfunction.

**Administering Internal Operations**

- **Files of the Commission Director.** Included in these files are administrative correspondence, memoranda, programmatic records, information on speaking engagements, and other related documents. They are useful in documenting the administration of the commission. **(Bibliographic Title: Administrative Files)**

- **Annual Reports.** In accordance with the Code of Alabama 1975 § 36-25-3 (c), the commission publishes an annual report for the governor and the legislature. Information contained in the annual report includes biographical data of commissioners, brief description of the commission’s mandates, significant events of the previous year, commission meeting highlights, digest of advisory opinions issued by the commission, expenditures, and charts containing statistical data. In addition to paper copies, the annual report is also available on the commission’s website. **(Bibliographic Title: State Publications)**

- **Website.** The board has a website at: www.ethics.alalinc.net. Information on the website includes the Alabama Ethics Law, all text-searchable advisory opinions issued by the commission since 1995, blank commission required forms, guidelines for completing these forms, current annual report, directory of commission members and staff, and registered lobbyist list. The website should be preserved as it serves as an important medium for communication with the public. **(Bibliographic Title: Website)**

- **Legal Case Files.** This series consists of legal case files created by the commission’s general counsel containing materials relating to specific legal activities. A typical file may include briefs, memoranda, correspondence, reports, notes, copies of laws and regulations, and other legal documents. The commission preserves the legal case files permanently for documentation.

- **Inventory Lists.** The Code of Alabama 1975 § 36-16-8[1] requires that “…All [state agency] property managers shall keep at all times in their files a copy of all inventories submitted to the Property Inventory Control Division, and the copies shall be subject to examination by any and all state auditors or employees of the Department of Examiners of Public Accounts.” These files need to be maintained in the agency’s office.

State Ethics Commission Records Disposition Authority

This Records Disposition Authority (RDA) is issued by the State Records Commission under the authority granted by the Code of Alabama 1975 § 41-13-5 and § 41-13-20 through 21. It was compiled by the Government Records Division, Alabama Department of Archives and History (ADAH), which serves as the commission’s staff, in cooperation with representatives of the State Ethics Commission. The RDA lists records created and maintained by the State Ethics Commission in carrying out its mandated functions and activities. It establishes retention periods and disposition instructions for those records and provides the legal authority for the agency to implement records destruction.

Alabama law requires public officials to create and maintain records that document the business of their offices. These records must be protected from “mutilation, loss, or destruction,” so that they may be transferred to an official’s successor in office and made available to members of the public. Records must also be kept in accordance with auditing standards approved by the Examiners of Public Accounts (Code of Alabama 1975 § 36-12-2, § 36-12-4, and § 41-5-23). For assistance in implementing this RDA, or for advice on records disposition or other records management concerns, contact the ADAH Government Records Division at (334) 242-4452.

Explanation of Records Requirements

- This RDA supersedes any previous records disposition schedules governing the retention of the State Ethics Commission. Copies of superseded schedules are no longer valid and may not be used for records disposition.

- The RDA establishes retention and disposition instructions for records listed below, regardless of the medium on which those records may be kept. Electronic mail, for example, is a communications tool that may record permanent or temporary information. As for records in any other format, the retention periods for e-mail records are governed by the requirements of the subfunctions to which the records belong.

- Some temporary records listed under the Administering Internal Operations subfunction of this RDA represent duplicate copies of records listed for long-term or permanent retention in the RDAs of other agencies.

- Certain records and records-related materials need not be retained as records under the disposition requirements in this RDA. Such materials include: (1) duplicate record copies that do not require official action, so long as the creating office maintains the original record for the period required; (2) catalogs, trade journals, and other publications received that require no action and do not document government activities; (3) stocks of blank stationery, blank forms, or other surplus materials that are not subject to audit and have become obsolete; (4) transitory records, which are temporary records created for short-term, internal purposes that may include, but are not limited to: telephone call-back messages; drafts of ordinary documents not needed for their evidential value; copies of material sent for information purposes but not needed by the receiving office for future business; and internal communications about social activities; and (5) honorary materials,
plaques, awards, presentations, certificates, and gifts received or maintained by the agency staff. They may be disposed of without documentation of destruction.

**Records Disposition Requirements**

This section of the RDA is arranged by subfunctions of the State Ethics Commission and lists the groups of records created and/or maintained by the agency as a result of activities and transactions performed in carrying out these subfunctions. The agency may submit requests to revise specific records disposition requirements to the State Records Commission for consideration at its regular quarterly meetings.

Requirement and Recommendations for Implementing the Records Disposition Authority (RDA)

Under the Code of Alabama 1975 § 41-13-21, “no state officer or agency head shall cause any state record to be destroyed or otherwise disposed of without first obtaining approval of the State Records Commission.” This Records Disposition Authority constitutes authorization by the State Records Commission for the disposition of the records of the State Ethics Commission (hereafter referred to as the agency) as stipulated in this document.

One condition of this authorization is that the agency submit an annual Records Disposition Authority (RDA) Implementation Report on agency records management activities, including documentation of records destruction, to the State Records Commission in October of each year. In addition, the agency should make every effort to establish and maintain a quality record-keeping program through the following activities:

- The agency should designate a records liaison, who is responsible for: ensuring the development of quality record keeping systems that meet the business and legal needs of the agency, coordinating the transfer and destruction of records, ensuring that permanent records held on alternative storage media (such as microforms and digital imaging systems) are maintained in compliance with national and state standards, and ensuring the regular implementation of the agency’s approved RDA.

- Permanent records in the agency’s custody should be maintained under proper intellectual control and in an environment that will ensure their physical order and preservation.

- Destruction of temporary records, as authorized in this RDA, should occur agency-wide on a regular basis – for example, after the successful completion of an audit, at the end of an administration, or at the end of a fiscal year. Despite the RDA’s provisions, no record should be destroyed that is necessary to comply with requirements of the state Sunset Act, audit requirements, or any legal notice or subpoena.

- The agency should maintain full documentation of any computerized record-keeping system it employs. It should develop procedures for: (1) backing up all permanent records held in electronic format; (2) storing a back-up copy off-site; and (3) migrating all permanent records when the system is upgraded or replaced. If the board chooses to maintain permanent records solely in electronic format, it is committed to funding any system upgrades and migration strategies necessary to ensure the records’ permanent preservation and accessibility.

The staff of the State Records Commission or the Examiners of Public Accounts may examine the condition of the permanent records maintained in the custody of the agency and inspect records destruction documentation. Government Records Division archivists are available to instruct the agency staff in RDA implementation and otherwise assist the agency in implementing its records management program.
The State Records Commission adopted this Records Disposition Authority on October 27, 2004.
