

2025 Alabama History Institutes: Grades 4-6

Alabama History and STEM: A Perfect Match

ATTA Library of STEM & History, Abbeville
June 3-5, 2025

Stacey Leatherman, Jefferson County Schools
Merrilea Amos, Magic City Acceptance Academy

History is evident across all content areas, and incorporating social studies into science instruction is easier than you might believe! In many ways, science has helped to make Alabama history. Join us as we explore that history of vast scientific achievements in research and innovations. Understanding Alabama's unique environment necessarily involves investigating the ways that our state's geography has evolved and how it has defined migrations, agriculture, leisure, and more. Using primary sources, uncover the many scientific advancements with roots in Alabama that have shaped federal programs, determined the course of conflicts, and improved our way of life. You will receive classroom materials to enhance your students' ability to understand and appreciate the history of the scientific concepts in the world around them. You will need to bring your own operable device, such as a laptop or Chromebook, as you will be required to use it for full participation.
